

GLOBE 2010

VANCOUVER CONVENTION CENTRE, CANADA
MARCH 24-26

11TH BIENNIAL TRADE FAIR & CONFERENCE ON
BUSINESS & THE ENVIRONMENT • VANCOUVER

OVERVIEW

DEVELOPING THE BUSINESS OF THE ENVIRONMENT

GLOBE 2010 EDITION

Over the past twenty years, the GLOBE™ series has emerged as one of the most well-known and prestigious business and environment events in the world. Senior business executives, government officials and leaders in environmental innovation from over 75 nations meet every two years at this exciting forum to exchange ideas, cultivate partnerships and do business.

Join over 2,000 delegates in Vancouver, Canada, March 24 – 26, 2010 to explore the issues that lie at the heart of corporate sustainability, global energy and environment priorities, emerging environmental markets, and the future of sustainable urban development.

DISCOVER CUTTING-EDGE ADVANCES IN ENVIRONMENTAL TECHNOLOGY

Over 400 leading technology companies from Canada, the United States, Europe and Asia will display their latest environmental solutions at GLOBE 2010. Exhibits will represent a variety of sectors, including: alternative energy, air quality management, water supply and waste water, climate change, energy efficient vehicles, fuel cell technologies, green building products, energy efficiency, pollution prevention, waste management and recycling, sustainable construction and urban environmental management.

DISCUSS the innovative ideas, systems and tools that are helping corporations maximize the benefits of being environmentally responsible.

LEARN about the most recent advances in environmental technology and keep up-to-date on this growing industry.

SEE hundreds of ground-breaking environmental technologies, products and services from around the world.

MEET senior level corporate executives, policy makers, environmental industry executives, international agency representatives, urban planners and professionals, financial executives, media, and government decision makers from around the world.

ACCESS qualified buyers, joint venture partners, distributors and partners.

PLAN to attend the premier event on the business of the environment for 2010!
